

The Financial Strength of Madewini Villas

When looking for a community to settle in, it's important to know how financially sound the developer is. Madewini Villas – Resort Community is a part of a large Corporation, that is, the Ashmin's Group of Companies and is being developed by Mr. Lennox John, the owner, who is the Managing Director.

We have successfully built and are currently managing a number of huge projects that are valued at over USD 15 Million. These projects include Ashmin's Trading Co., The City Mall and Splashmin's Fun Park & Resort.

The Splashmin's location, on which the Madewini Villas – Resort Community is being built, has met the requirements of the Environmental Protection Agency. That means that this pristine location is fully equipped for luxurious living in harmony with nature. In addition to that, this allocated area already has all the infrastructure in place for a comfortable lifestyle. These include; full electricity, roads, drainage, wastewater treatment and telephone. We also have our own pure artesian well.

You can invest in Madewini with confidence knowing that this project, like the other Ashmin's Group projects, will be completed with a gold standard. And it will be completed beautifully.
